lown," or debilitated, need just one medi-rine—and that is Dr. Pierce's Favorite cine—and that is Dr. Pierco's Favorite Frescription. It's a broad statement, but facts bear it out. These are the facts:

If you're a weak and delicate woman, then the "Pavorite Prescription" builds you up; if you suffer from any of the painful disorders and derangements peculiar to your sex, it relieves and cures, it invigorates the system, improves digestion, suriches the blood, dispels aches and pains, brings refreshing sleep, and restores health and strength. All the chronic weeknesses, irregularities, and disturbances known as "female complaints" are permanently cured by it.

These are focts, and they're strong enough to warrant the makers in guaranteeing their remedy. If it falls to benefit or cure, you have your money back. No other medicine for women is sold on such terms. That proves that nothing also can be "just as good."
